

Giving audio feedback with Audioboo (SL mini conference 2)

Go to www.audioboo.com

Go to your inbox and click on the link to verify your account

You can adjust your settings from your account in Audioboo

Your username is okanbolukbas ([edit](#)) [I want to delete my account](#)
You are only allowed to change your username once
[Want to change your password?](#)

Your current email address
okanbolukbas@sabanciuniv.edu
You will be emailed a link to confirm any address changes

Email me when comments are posted to new boos
This won't affect your notification status for boos you have already posted.

Email me when people follow me

Send me the newsletter
We'd like to keep you up to date with an occasional newsletter. We'll never share your email with anyone else.

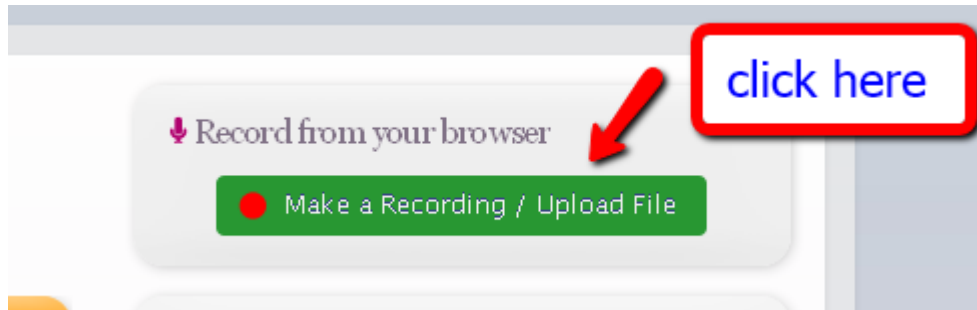

Message Notifications
 Email me when I get a message

Send the message to my twitter account:
@

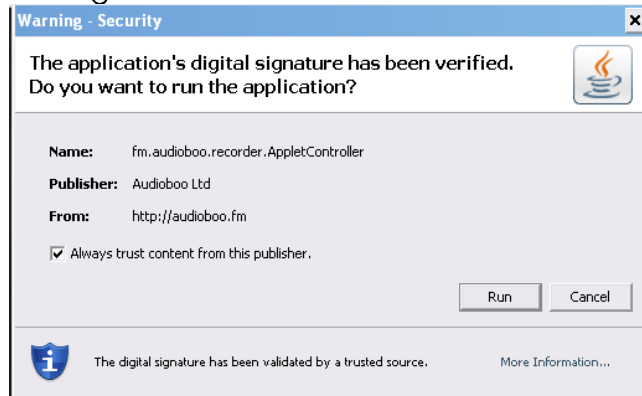

You will also need to follow @theboobot

[Update](#)

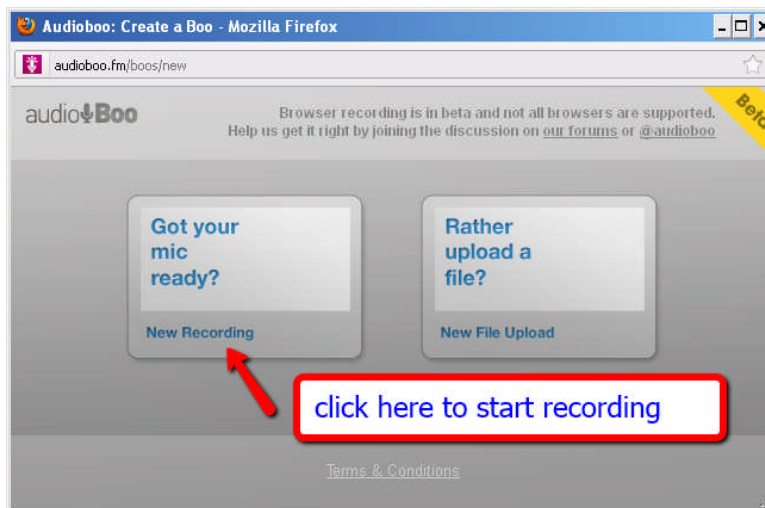

Start recording now

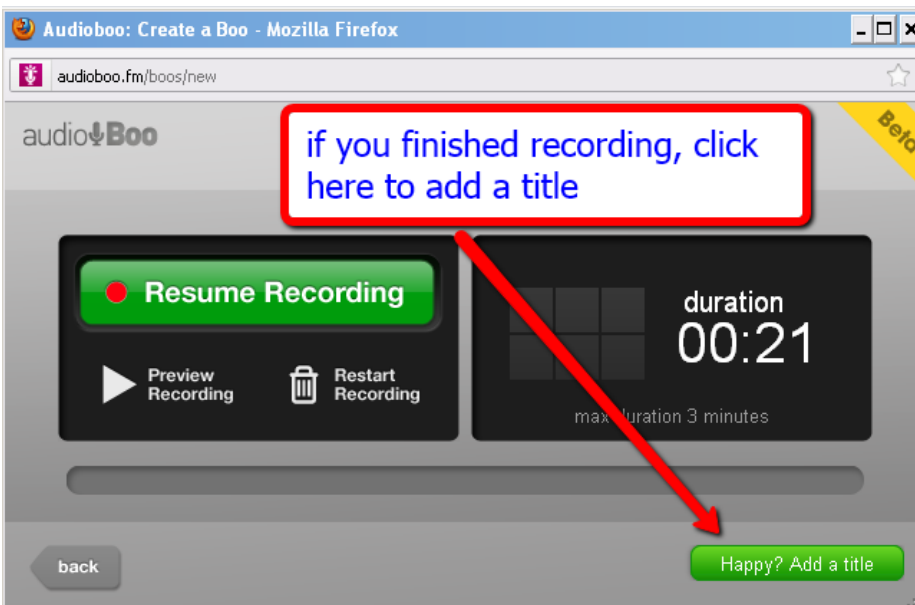

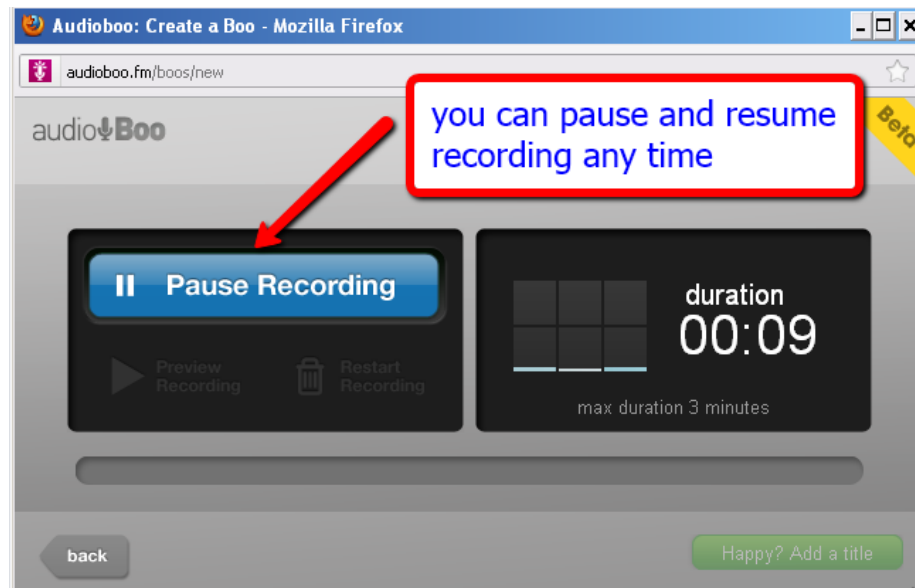

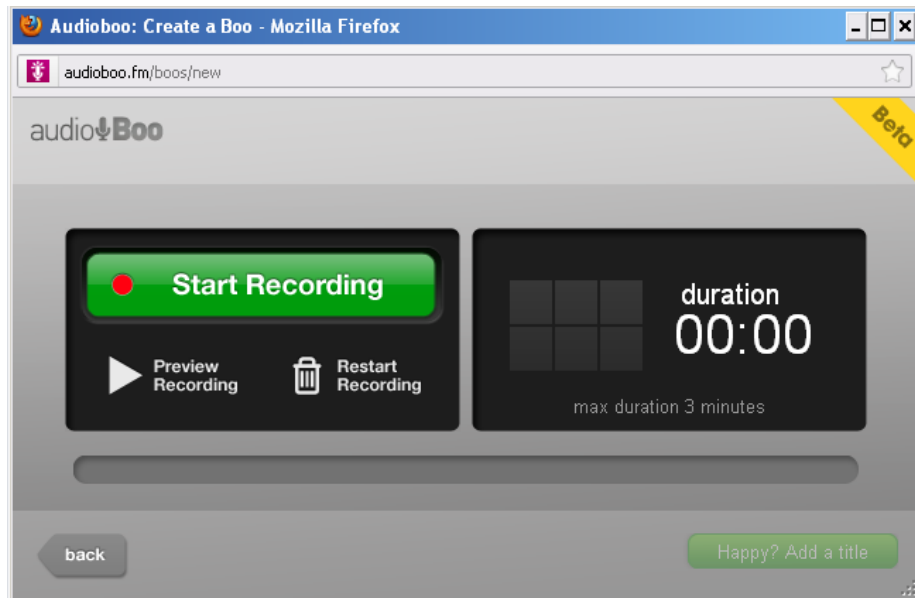

if you do not have java installed, carry out with this below (click on run)

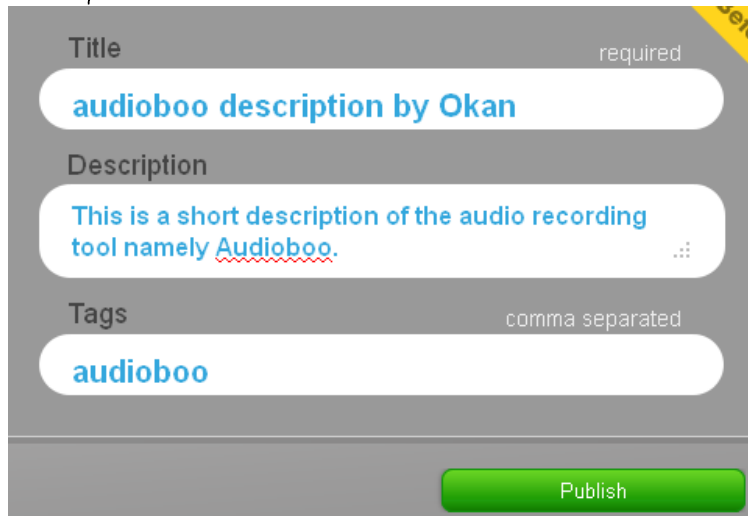

A small window will pop

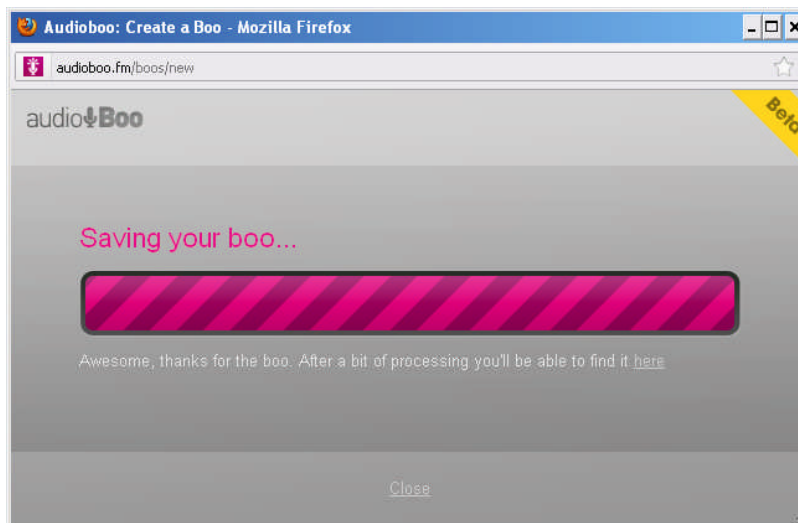

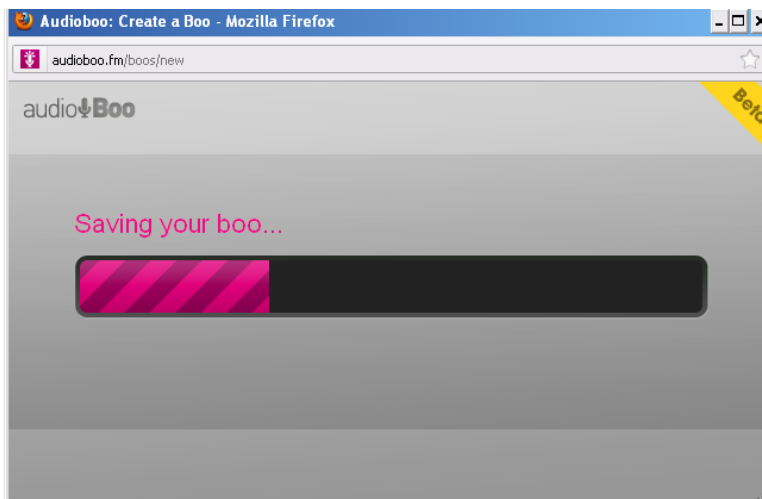

If you want, you can enter descriptions and details

The screenshot shows a form for creating a 'boo'. It has three main sections: 'Title', 'Description', and 'Tags'. The 'Title' field contains 'audioboo description by Okan' and is marked as 'required'. The 'Description' field contains 'This is a short description of the audio recording tool namely Audioboo.' with a red squiggly underline under 'Audioboo.'. The 'Tags' field contains 'audioboo' and is marked as 'comma separated'. A green 'Publish' button is at the bottom right. A yellow 'Beta' banner is in the top right corner.
